A COMMITMENT TO EXCELLENCE SINCE 1967

COMPANY HISTORY

From L to R: Mamon Powers, Jr. (President); Mamon Powers, Sr. (Founder); Claude Powers (Exec. VP)

Powers & Sons Construction Company was founded in 1967 by Mamon Powers, Sr. Since then, we have evolved from a home-builder to a well recognized, multi-million dollar general contractor, construction manager and design-builder.

When the company entered the commercial construction market in 1971, Mamon Powers, Sr. challenged P&S to undertake the non-traditional role of general contractor rather than engaging in the traditional role of subcontractor. As a result, P&S became an independent, reputable contractor in the Northwest Indiana and Chicagoland area.

By the 1980s, P&S had become a respected General Construction firm. A growing clientele and increased experience on more complex projects allowed P&S to expand their services by opening an office in Indianapolis, IN in 1993.

Today, Powers & Sons continues to challenge itself to excel in the construction industry by providing high quality Construction Management, General Contracting and Design-Build services throughout much of Indiana and Northern Illinois. Our recent establishment of a Chicago office in 2004 is evidence of our continued growth in the construction industry. Our continuous commitment to improvement throughout the organization allows us to be among the top preferred contractors in these markets.

TEAM MEMBERS

We at Powers & Sons are a diverse group of construction professionals who are highly motivated to ensure customer satisfaction. Our diversity, not only in background, but experiences, allows us to create an atmosphere that fosters learning at all levels. In this ever-changing industry, it is vital for every team member to have the ability to learn, adapt, and grow from situations as they present themselves. We are searching for potential team members who fit profiles in all areas of the construction and related industries.

INTERNS

We offer intern positions as estimators, project engineers and field engineers. Within these positions we hope to provide each team member with an **active** role in our daily construction environment that will foster career growth & development.

PROJECT PERSONNEL

Support and project personnel are vital contributors to each project. We strive to find project personnel with individual problem-solving skills and the ability to function well in a team environment.

SITE PERSONNEL

Our superintendents and trades people materialize the vision of the Owner & Architect. Our goal is to find site personnel who are capable of producing a product of the highest quality and workmanship.
